The **3D Book** is the most ambitious and complete of Vicens Vive’s projects to date, offering material in the formats **paper, online** and **offline**.

### Paper dimension
Quality books and other didactic materials.

- Student’s Book
- Comprehension activities
- Activities for applying knowledge
- Activities for developing the basic competences
- Web Activities
- Teacher’s File and answer keys

### Offline dimension
The offline version combines digital potential with reliability.

- Student’s Book (Offline WebBook version)
- Interactive, self-correcting activities
- Open activities
- Teacher’s File, answer keys and Curricular Projects
- Designed and adapted for use with Interactive Whiteboard (IWB)
Vicens Vives quality and dependability adapted to the needs of today’s classrooms.

**Online dimension**
All the features of the book and much more plus assessment via the Web.

- *WebBook*: computer version and tablet version
- Interactive, self-correcting activities and open activities
- Downloadable Teacher’s Files and answer keys
- Learning management and assessment
- Designed and adapted for use with a computer, a tablet or Interactive Whiteboard (IWB)
- 🕹️ Tiching: global teaching network. tiching.com

Geography & History 1
Social Sciences
Year 1 ESO

2. Choose the book.

3. Select the unit and activity.

4. Do the activity and correct it.
Vicens Vives’s digital books are in web page format. They can be accessed via any computer, at home or at school. Their clear and simple structure, which follows the teaching curriculum, makes them very user friendly.

www.vicensvivesdigital.com

Multimedia library: contains all the images and animations for the unit.

Font size can be modified for easy reading on small screens without altering the screen layout.

Before you start: entry test for the unit and unit objectives.

Table of contents: fast access to the different sections of the unit.

Unit content: presentation of text, images and animations.

Instructive, high quality images and animations.

Additional resources: allow the teacher to incorporate and share all types of didactic materials with the students: activities, links, multimedia documents, forums and questions.

User info: Indicates name and type of user.

Appendix: this section contains additional resources specific to the topic: calculator, glossary, etc.

Summaries of the different sections of the unit in PDF format for offline use.

Links to selected web pages for further exploration of the topic.

Link to Tiching search engine.

Activities on each of the unit sections with the number of questions and level of difficulty clearly indicated. Include both open questions and self-correcting, closed questions.

Complementary documents to expand on specific aspects of each topic.
TEACHER'S MATERIAL

Teacher's Resource File

- Basic Competences
