The 3D Book format is Vicens Vives’ most ambitious project to date, offering online, offline and paper versions of the educational material.

**Paper dimension**
Quality books and other teaching resources.

- Student’s Book
- Comprehension activities
- Activities for applying knowledge
- Activities for developing the basic competences
- Web Activities
- Teacher’s Guide and answer key

**Offline dimension**
The offline version provides all the digital components, without the need for internet connection.

- Student’s Book (Offline WebBook version)
- Interactive, self-correcting activities
- Open end activities
- Teacher’s Guide, answer key and Curriculum Objectives
- Designed for use with the Interactive Whiteboard (IWB)
Vicens Vives guarantees quality educational material which has been adapted to meet the needs of today’s classroom.

**Online dimension**

All the features of the book and much more plus assessment via the Web.

- WebBook: computer version and tablet version
- Interactive, self-correcting activities and open end activities
- Downloadable Teacher’s Guide and answer key
- Learning management and assessment
- Designed and adapted for use with a computer, tablet or Interactive Whiteboard (IWB)
- Tiching: global teaching network. [tiching.com](http://tiching.com)

WEBBOOK

Before you start:
Start-of-unit test.

Appendix:
This section contains additional resources specific to the topic: calculator, glossary, etc.

Access to all the activities and links of the unit.

Summaries of the different sections of the unit in PDF format for offline use.

Links to selected web pages for further exploration of the topic.

Link to Tiching search engine.

Activities on each of the unit sections with the number of questions and level of difficulty clearly indicated. Include both open end questions and self-correcting, closed questions.

Complementary documents to expand on specific aspects of each topic.

Multimedia library:
Contains all the images and animations for the unit.

Font size can be modified for easy reading on small screens without altering the screen layout.

User info:
Indicates name and type of user.

Table of contents:
Fast access to the different sections in the unit.

Additional resources:
Allow the teacher to incorporate and share all types of teaching resources with the students: activities, links, multimedia documents, forums and questions.

High quality images and animations.

Unit content:
Presentation of text, images and animations.
WEB @ ACTIVITIES

• Self-correcting activities for each unit available online.

1. Choose the subject. 2. Choose the book. 3. Select the unit and activity. 4. Do the activity and check your answers.

TEACHER'S MATERIAL

Teacher's Resource Guide

• Key Competencies
• Classroom programming
  - Objectives
  - Contents
  - Evaluation Criteria
• Teacher's Book
• Answer Key
• Attention to Diversity
